

INSTRUMENT RESTORATION PREVENTATIVE CARE AND MAINTENANCE

Pride.Precision.Performance.

There has never been a better time to take a look at restoring your instrument sets!

With Sustainability a key driver as we all work towards a Net-Zero healthcare system, restoring, reusing and repurposing should be a consideration when planning to achieve and maintain optimum 'up-time' of key surgical instrument inventory.

We offer a fully risk assessed surgical instrument restoration service which, along with the correct preventative maintenance will prolong the life of your surgical instrument assets.

Our Set Restoration / Preventative Care programme offers the following benefits;

- Instrument sets look like brand new once refurbished.
- All marks and barcodes remain intact.
- All instruments re-passivated.
- Reduction in broken, cracked, blunt and corroded instruments.
- Clear concise engineers report on each instrument within each set.
- Fixed cost – a one off charge for all refurbishment and remedial work.
- Planned maintenance instead of waiting until an instrument fails or is beyond repair.
- Highlights potential issues before they arise.
- All work carried out in accordance with our Quality Management Systems ISO 13485:2016.
- All work guaranteed for 12 months.
- Replacements if required from a large stock of our premium quality surgical instruments.

Start the ball rolling by sending us your set lists for a guide price. Subject to approval we can schedule your sets into production at a time to suit you. Collection and delivery of sets through our own vans and drivers or our dedicated courier service.
